

This weekend, the [Missouri Department of Health and Senior Services](#) and the [Missouri National Guard](#) are conducting a drive-through COVID-19 community testing event for Missouri residents in Perryville. Register at health.mo.gov/communitytest or by calling the state hotline at 877-435-8411.

Those arriving for testing will enter the City Park off of Highway 61 across from the Sheriff's Department.

The tests are open to all residents of Missouri. You do not have to be experiencing symptoms to be eligible for the test, and no doctor's order is required. There is also no fee, and no need to present insurance information.

The test is a PCR test done by a nasopharyngeal swab to determine if there is an active infection with SARS-CoV-2, the virus that causes COVID-19. This is not an antigen or antibody test.

COMMUNITY TESTING EVENT
Register online at health.mo.gov/communitytest
