

COVID-19 UPDATE 08/12/20 4:15 PM:

Fourteen new lab-confirmed cases and one new probable case in Perry County, MO since 08/10 update.
Four additional recoveries.

New cases 8/11: 3 lab-confirmed cases and 1 probable case

New cases 8/12: 11 lab-confirmed cases

Active Cases: 40

Perry County's risk level is analyzed once a week, at a minimum, using criteria prescribed by CDC and standard epidemiological practice. Although we are no longer seeing a downward trend in our community, the increase in cases is not enough to warrant an increase in our risk level at this time. This decision is due to currently isolated outbreaks which have amplified local numbers.
