

COVID-19 UPDATE 08/14/20 3:30 PM:

Nine new lab-confirmed cases in Perry County, MO since 08/12 update. Twelve additional recoveries.

New cases 8/13: 6

New cases 8/14: 3

Active Cases: 37

Perry County's risk level is analyzed once a week, at a minimum, using criteria prescribed by CDC and standard epidemiological practice. Although we are no longer seeing a downward trend in our community, the increase in cases is not enough to warrant an increase in our risk level at this time. This decision is due to currently isolated outbreaks which have amplified local numbers.
